READINGS · DAY 1

Data management I

Reproducible work from the first line. Short, targeted reading: the parts that match today, not whole books.

R01 Bjärkefur, K., Cardoso de Andrade, L., Daniels, B. and Jones, M. R. (2021). *Development Research in Practice: The DIME Analytics Data Handbook*. Washington, DC: World Bank.
Read: Chapter 1 (reproducibility, transparency, credibility) and Appendix A, the DIME Analytics Coding Guide.
Why today: The habits Day 1 builds in Stata (one folder, a do-file, a log, no clicking) are the habits this handbook argues for. Appendix A is a Stata style guide written for teams like an NSO.
`https://openknowledge.worldbank.org/handle/10986/35594`
Open access, CC BY 3.0 IGO: free to download and share with attribution.

R02 Long, J. S. (2009). *The Workflow of Data Analysis Using Stata*. College Station, TX: Stata Press.
Read: The chapters on planning and organising, and on writing and debugging do-files.
Why today: The standard text on how a statistical office should lay out projects, name files and keep a record of every step.
Copyrighted book: cited only. Ask the NBS library or buy from Stata Press.

R03 Mitchell, M. N. (2020). *Data Management Using Stata: A Practical Handbook*, 2nd ed. College Station, TX: Stata Press.
Read: The chapters on reading and importing data, and on labelling.
Why today: More worked examples of `import excel`, `import delimited`, `label define` and `label values` than a slide can hold.
Copyrighted book: cited only.

R13 StataCorp. *Stata Reference Manuals* (installed with Stata): [U] User's Guide, [D] Data Management, [G] Graphics, [SVY] Survey Data, [R] Base Reference, [TS] Time Series, [XT] Longitudinal Data/Panel Data, [P] Programming, [RPT] Reporting.
Read: [U] the chapter on do-files; [D] the entries `import excel`, `describe`, `codebook`, `recode`.
Why today: The authoritative description of every option you met today.
Installed with Stata. Open them from Stata: `help` *command*, then the PDF link at the top of the help page. Not copied into this package.

Codes R01–R13 are the same on every day's list and in the workbook bibliography. Links checked October 2026. Copyrighted books and the Stata manuals are cited, not copied; the open-licence documents named *in this folder* are shared under their stated licence.
