READINGS · DAY 4

Regression and statistical series

Models, labour definitions, the CPI and seasonality. Short, targeted reading: the parts that match today, not whole books.

R08 International Labour Organization (2013). *Resolution concerning statistics of work, employment and labour under-utilization*, adopted by the 19th International Conference of Labour Statisticians. Geneva: ILO.
Read: The resolution text: the definitions of employment, unemployment and the labour force.
Why today: The international standard behind the employment indicators modelled today.
`https://www.ilo.org/resource/resolution-concerning-statistics-work-employment-and-labour`
Free on the ILO site (link only).

R09 IMF, ILO, Eurostat, UNECE, OECD and World Bank (2020). *Consumer Price Index Manual: Concepts and Methods*. Washington, DC: International Monetary Fund.
Read: The chapters on elementary indices and on calculating the CPI.
Why today: How the index series analysed today is built, and why its monthly changes are read as they are.
`https://www.imf.org/-/media/files/data/cpi/cpi-manual-concepts-and-methods.pdf`
Free on the IMF site (link only).

R10 Eurostat (2024). *ESS Guidelines on Seasonal Adjustment*, 2024 edition. Manuals and Guidelines. Luxembourg: Publications Office of the European Union.
Read: Chapter 2 (introduction and basic definitions), 4.2 (graphical analysis), 5.1 (testing for seasonality) and 10.2 (press releases).
Why today: Before seasonally adjusting any NBS series, the ESS rules on what to test and how to present it. Each item lists a best, an acceptable and a to-be-avoided practice.

In this folder: ESS$_{S}eason al_{A}djustment_{2}024.pdf$
CC BY 4.0: may be shared with attribution.

R07 Heeringa, S. G., West, B. T. and Berglund, P. A. (2017). *Applied Survey Data Analysis*, 2nd ed. Boca Raton, FL: CRC Press.
Read: The chapters on linear and logistic regression for survey data.
Why today: Regression with `svy:` and the interpretation of `margins`.
Copyrighted book: cited only.

R13 StataCorp. *Stata Reference Manuals* (installed with Stata): [U] User's Guide, [D] Data Management, [G] Graphics, [SVY] Survey Data, [R] Base Reference, [TS] Time Series, [XT] Longitudinal Data/Panel Data, [P] Programming, [RPT] Reporting.
Read: [R] `regress`, `logit`, `margins`; [TS] `tsset`; [XT] `xtset`, `xtreg`.
Why today: Options and stored results for today's models.
Installed with Stata. Open them from Stata: `help` *command*, then the PDF link at the top of the help page. Not copied into this package.

Codes R01–R13 are the same on every day's list and in the workbook bibliography. Links checked October 2026. Copyrighted books and the Stata manuals are cited, not copied; the open-licence documents named *in this folder* are shared under their stated licence.
