READINGS · DAY 5

# Programming and production

From do-files to an automated, documented release. Short, targeted reading: the parts that match today, not whole books.

**R11** UNECE (2019). *Generic Statistical Business Process Model (GSBPM)*, version 5.1. Geneva: UNECE, on behalf of the international statistical community.
**Read:** Section II (the model) and the Process, Analyse and Disseminate phases (sub-processes 5.1 to 7.2).
**Why today:** Today's five modules map onto GSBPM sub-processes: `01_clean` reviews and validates (5.3), `02_design` derives the flags and checks the weights (5.5, 5.6), `03_estimates` calculates aggregates (5.7), `05_report` prepares outputs and the release file (6.1, 7.2).
`https://statswiki.unece.org/display/GSBPM`
In this folder: `GSBPM_v5.1.pdf`
CC BY 4.0: may be shared with attribution.

**R12** United Nations General Assembly (2014). *Fundamental Principles of Official Statistics*, resolution 68/261.
**Read:** Principles 1 to 6.
**Why today:** Principle 3: present information according to scientific standards on sources, methods and procedures. A release that rebuilds from one do-file is how an NSO meets it.
`https://unstats.un.org/UNSD/dnss/gp/FP-New-E.pdf`
Free on the UN site (link only).

**R01** Bjärkefur, K., Cardoso de Andrade, L., Daniels, B. and Jones, M. R. (2021). *Development Research in Practice: The DIME Analytics Data Handbook*. Washington, DC: World Bank.
**Read:** Chapter 7 (publishing reproducible research outputs) and Appendix A.
**Why today:** Master scripts, version control and a reproducibility package: the same structure as today's `master.do`.
`https://openknowledge.worldbank.org/handle/10986/35594`
Open access, CC BY 3.0 IGO: free to download and share with attribution.

**R02** Long, J. S. (2009). *The Workflow of Data Analysis Using Stata*. College Station, TX: Stata Press.
**Read:** The chapters on automating your work and on protecting your files.
**Why today:** Locals, loops, and keeping a release reproducible and safe from accidental change.
Copyrighted book: cited only. Ask the NBS library or buy from Stata Press.

**R13** StataCorp. *Stata Reference Manuals* (installed with Stata): [U] User's Guide, [D] Data Management, [G] Graphics, [SVY] Survey Data, [R] Base Reference, [TS] Time Series, [XT] Longitudinal Data/Panel Data, [P] Programming, [RPT] Reporting.
**Read:** [P] `macro`, `foreach`, `program`; [RPT] `putdocx`, `putexcel`.
**Why today:** Every programming and reporting command used in the release.
Installed with Stata. Open them from Stata: `help` *command*, then the PDF link at the top of the help page. Not copied into this package.

Codes R01–R13 are the same on every day's list and in the workbook bibliography. Links checked October 2026. Copyrighted books and the Stata manuals are cited, not copied; the open-licence documents named *in this folder* are shared under their stated licence.
